Directors' Review Report

On behalf of the Board of Directors of National Bank Modaraba Management Company Limited (NBMMCL), the Management Company of First National Bank Modaraba (FNBM), I am pleased to present the half yearly report, together with financial statements of FNBM along with Review Report by the Auditors, for the six months ended December 31, 2016.

During the period under review, the management's focus remained primarily on recovery. The classified portfolio was secured through filing of recovery suits and some significant cash recoveries amounting to Rs.26.8 million were also realized from the classified portfolio during the period. However in compliance with SECP's prudential regulations for modarabas a further provisioning/impairment amounting to Rs.39.1 million was charged against the old classified accounts during the period.

The Modaraba earned an operating profit of Rs.9.08 million in the period under review as against Rs.7.9 million in the corresponding period last year. The operating expenses were kept under strict control despite general inflation resulting in reduction in the expenses by 29% as compared to the corresponding period. The EPC was recorded at Rs.(1.20) in this period as compared to Rs.(1.99) in the corresponding period last year.

Regarding the emphasis of matter paragraph by external auditors, the board's stance is same as explained in the note 1.1 to the financial statements.

Going forward, the management plans to focus on small ticket financing under diminishing musharaka and Ijarah modes of financing. We believe that if things move as planned then InshAllah we are hopeful about normalizing FNBM's profitability quite soon.

The Board would like to take this opportunity to thank its valued certificate holders and clients for their patronage and consistent support. Besides, the Board extends its sincere gratitude to Registrar Modarabas, SECP and NBFI & Modaraba Association of Pakistan for their continued guidance and support.

For and on behalf of the Board

AUDITORS' REPORT TO THE MEMBERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed interim balance sheet of First National Bank Modaraba ("the modaraba") as at 31 December 2016 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement, condensed interim statement of changes in equity and notes to the accounts for the half year then ended (herein after referred to as "condensed interim financial information"). Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this condensed interim financial information based on our review. The figures of the condensed interim profit and loss account and condensed interim statement of comprehensive income for the quarters ended 31 December 2016 and 31 December 2015 have not been reviewed and we do not express a conclusion on them as we are required to review only the cumulative figures for the half year ended 31 December 2016.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information as of and for the half year ended 31 December 2016 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

Emphasis of Matter

We draw attention to note 1.1 to the condensed interim financial information which indicates that the modaraba has incurred a loss after taxation of Rupees 30.029 million during the half year ended 31 December 2016, while the accumulated loss, as at 31 December 2016 amounts to Rupees 236.292 million which exceeds fifty percent of the total amount subscribed by the holders of the modaraba certificates and as of that date the modaraba's current liabilities exceeded its current assets by Rupees 239.135 million. These conditions, along with other matters as explained in note 1.1, indicate the existence of material uncertainty which may cast significant doubts about the modaraba's ability to continue as going concern. Our conclusion is not qualified in respect of this matter.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) FOR THE HALF YEAR ENDED 31 DECEMBER 2016

1 LEGAL STATUS AND NATURE OF BUSINESS

First National Bank Modaraba ("the Modaraba") is a multi-purpose, perpetual and multi-dimensional Modaraba formed under the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 and Rules framed thereunder. The Modaraba is managed by National Bank Modaraba Management Company Limited (a wholly owned subsidiary of National Bank of Pakistan), incorporated in Pakistan under the Companies Ordinance, 1984 and registered with the Registrar of Modaraba Companies. The registered office of the Modaraba is situated at Ground Floor, National Bank of Pakistan, Regional Headquarters Building, 26-Mc Lagon Road, Lahore.

The Modaraba is listed on Pakistan Stock Exchange Limited. It commenced its operations on 04 December 2003 and is currently engaged in various Islamic modes of financing and operations including ijarah, musharaka and murabaha arrangements.

JCR-VIS has assigned long term rating of BBB+ and short term rating of A-3 to the Modaraba.

1.1 Going concern assumption

During the half year ended 31 December 2016, the Modaraba made an operating profit of Rupees 9.080 million, however, due to provision and impairment charged against old classified assets, the Modaraba incurred loss after taxation of Rupees 30.029 million taking the accumulated loss to Rupees 236.292 million which exceeds 50% of the total amount subscribed by the holders of modaraba certificates. The Statutory reserves amounted to Rupees 43.955 million while the total net accumulated losses stood at Rupees 192.336 million. At the balance sheet date, the Modaraba's current liabilities exceeded its current assets by Rupees 239.135 million.

In order to address the going concern issue in terms of Section 23 of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980, National Bank of Pakistan (NBP), being the parent company of the modaraba management company remains committed to support the Modaraba and has sanctioned a long term finance of Rupees 100 million which is repayable in three years, and has also renewed a short term borrowing facility of Rupees 250.000 million. Furthermore, besides fresh funding, the Modaraba is also engaged with NBP to secure its help in recoveries from non-performing parties which are common with NBP and the Modaraba, as this would optimize synergies for the consolidated entity at group level both in form of saving management costs and accelerating recoveries. Moreover, approximate amount of ijarah rentals due from the unclassified parties within next twelve months is Rupees 83.251 million.

The management of the Modaraba is confident that these steps will bring the Modaraba out of financial losses and the Modaraba would have adequate surplus resources to continue its business in foreseeable future. This condensed interim financial information therefore, does not include any adjustment relating to realization of its assets and liquidation of any liabilities that might be necessary should the Modaraba be unable to continue as a going concern.
